FIELD DTJ SHIRT WOMEN

The Field DTJ Shirt, along with the other components of our tropical uniform, has become a very popular system for operations in warmer climates, thanks to its high level of comfort. The material blend in this product provides the benefits of rapid drying and durability. The large buttons make it easy for the user to close the pockets and secure their equipment. On the tropical uniform, we have minimized all zippers to reduce the risk of abrasions on hands, as the risk of infection is often very high in these climates.

FUNCTIONS

- Front flap that closes with a zipper/buttons
- Compass pocket with Velcro closure on the front flap
- Velcro on the compass pocket for labeling
