TIR LC PONCHO

The TIR LC Poncho is a unique product that effectively protects the user from being detected by light-enhancing and thermal imaging lenses. It operates across a wide range of the electromagnetic spectrum. The fabric is capable of interacting with infrared radiation wavelengths in the NIR, SWIR, MWIR, LWIR, and FIR ranges. The material features zones with varying levels of reflectance to blend into surrounding environments. The poncho's outer fabric layer consists of cut leaves, and the adjustable hood includes a concealed fabric that can be deployed to protect the face. The material offers excellent properties such as durability, low weight, breathability, and ease of packing.

FUNCTIONS

- Fixed and adjustable hood
- Fabric hidden in the hood can be pulled out to cover the face
- Press studs on the outer edge for quick closure
- Eyelet tape on the outer edge for flexible fastening
- Double-layered fabric, with the top layer consisting of leaves to create an irregular shape

FACTS

Article no.	203246924
Sizes	One size
Colors	16MA TMTP® MA Multi Terrain Pattern
Material	Fabric: 100% polyamide
Other	Weight : 2200 g
