KELSEY JACKET

The Kelsey Jacket is a durable and functional 3L Gore-Tex jacket developed in collaboration with ski patrollers who demand high levels of abrasion resistance and protection against harsh weather and wind. The garments also need to be comfortable and flexible to work in during a variety of tasks. The jacket features a high protective collar, spacious and practical pockets, ventilation openings, monophone holders, and a detachable hood designed to fit over a helmet. The Kelsey Jacket has several reinforced areas and is available in different color options for various needs, some of which include reflective and fluorescent sections for increased visibility.

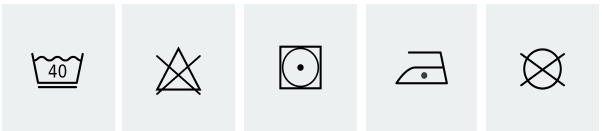

FUNCTIONS

- Detachable and adjustable hood with concealed drawcords.
- Hood optimized for helmet use, can be adjusted in width for use without a helmet.
- The hood's brim features a wire for shaping, providing face protection against wind and rain.
- High, protective, and adjustable collar.
- Heavy-duty two-way front zipper, covered by double storm flaps for extra water resistance.
- Microphone holders on both the left and right chest.
- Velcro patch on the chest for a name or ID tag.
- Chest pockets with zipper closure and protective flaps.
- Zippered inner pocket on the left side.
- Spacious side pockets with bellows, inner D-ring for securing items, zip closure, and pocket flaps.
- Lift pass pocket on the left sleeve.
- Pre-shaped sleeves.
- Heavy-duty Velcro adjustment at sleeve cuffs.
- Ventilation openings with waterproof zippers under the arms.
- Adjustable width at the waist and hem with concealed drawcords.
- Reinforcements at the bottom hem, elbows, and sleeve cuffs.
- Taped barrier on the inside of the hem and sleeve cuffs to prevent capillary absorption.
- Attachment points for separate winter liner.
- 3-layer Gore-Tex with taped seams.
