## INFORMATION FROM TAIGA AB ON COVID-19

**The ongoing spread of the corona virus in one way or another has an impact on all of us and the highest priority is, of course, that we all must maintain health. In these circumstances, good priorities are required as well as openness and transparency towards employees, customers, suppliers and other stakeholders of Taiga.**

Taiga's main priorities at this moment are that our employees should receive the right support and feel secure in their workplace. At the same time, it is of the utmost importance that we continue to have a good availability and good ability to deliver to our customers.

We work according to temporary rules of procedure internally at Taiga which aim to create a safe and secure workplace for our employees. We continue to have a high level of presence among our employees and until today we have no confirmed covid-19 cases among our employees. We can maintain regular productivity. Our production capacity is currently unchanged and production is going according to plan. Our fabric and material suppliers have a very good delivery capacity to us and our own stock levels of materials and readymade garments are good. At present, we can maintain the same good delivery capacity and short delivery times to all our customers.

In summary, our situation is stable at present and we will be able to maintain a good delivery capacity and availability to you as a customer. If the situation changes, we will keep you updated.

We now go into a period of holidays but Taiga has sustained availability. We do not close down the business but remain open to all our customers throughout the summer. Welcome to contact your point of contact or me if any questions arise.

Last but not least, me and my colleagues at Taiga wish you all a safe, healthy and relaxing summer.

Sincerely,

A handwritten signature in blue ink, appearing to read "Lasse Andersson".

Lasse Andersson
